

MUHAMMED ANSHIF KT

AI Operations — Machine Learning — Human-in-the-Loop AI — Prompt Engineering — AI Evaluation

📍 Trivandrum, Kerala 📞 +91-9539423046 ✉ anshifkt2002@gmail.com

[LinkedIn](#) — [GitHub](#)

Professional Summary

MSc Data Analytics and Computational Science student at Digital University Kerala with expertise in Machine Learning, Large Language Models (LLMs), AI-assisted workflows, prompt engineering, graph analytics, and data-driven decision making. Experienced in developing intelligent AI systems, evaluating AI-generated outputs, research-driven machine learning solutions, and building interactive analytics applications. Strong written communication, analytical reasoning, attention to detail, and problem-solving skills with a growing focus on Human-in-the-Loop AI, responsible AI, and AI operations.

Education

Digital University Kerala

Aug 2024 – Jun 2026

MSc Data Analytics and Computational Science

CGPA: 7.89/10

Mahatma Gandhi University

Oct 2020 – May 2023

BSc Physics Instrumentation

Relevant Coursework: Python Programming, Data Analysis, Instrumentation Systems, Microprocessors

Experience

Social Media Executive Intern

Jan 2024 – Jun 2024

GREEN WORMS, Kochi

- Analyzed campaign performance using engagement metrics and audience analytics.
- Collaborated with cross-functional teams to improve communication workflows.
- Prepared analytical reports and presented actionable insights.
- Managed multiple tasks while maintaining accuracy and attention to detail.

AI & Machine Learning Projects

SAASP Influence Analyzer

Python, NetworkX, Streamlit, Scikit-Learn

- Developed an AI-assisted analytics framework integrating graph algorithms and machine learning.
- Built a Random Forest model achieving 91.5% accuracy and 0.877 ROC-AUC.
- Generated ground-truth labels using SIR epidemic simulations.
- Created an interactive Streamlit dashboard for AI-driven decision support.

Sentiment-Aware Competitive Graph Diffusion

Python, NetworkX, TextBlob, EvolveGCN

- Designed a sentiment-aware graph diffusion framework.
- Implemented trust computation using PageRank and Degree Centrality.
- Developed temporal graph learning workflows.
- Achieved over 70% prediction accuracy.

ECG-Based Human Activity Classification

TensorFlow, Keras, Python

- Built ML and DL pipelines for ECG classification.
- Automated preprocessing, feature engineering and evaluation.
- Implemented Random Forest and MobileNetV2 models.

Noise Reduction in Chaotic Time Series

Python, NumPy

- Applied gradient descent for nonlinear signal denoising.
- Preserved attractor geometry while reducing noise.

Technical Skills

Programming: Python, SQL, C

Machine Learning: Scikit-Learn, TensorFlow, PyTorch, Deep Learning, NLP

AI Tools: Claude, ChatGPT, Gemini, Prompt Engineering, AI Evaluation, Human-in-the-Loop AI, AI-assisted Workflows

Graph Analytics: NetworkX, Social Network Analysis, PageRank, Centrality Measures, SIR Simulation

Data Analysis: Pandas, NumPy, Statistical Analysis, Feature Engineering

Visualization: Power BI, Plotly, Matplotlib, Streamlit

Databases: MySQL, PostgreSQL

Tools: Git, GitHub, VS Code, Jupyter Notebook

AI Certifications

- **Anthropic – AI Fluency: Framework & Foundations**

Human-AI collaboration, responsible AI, AI evaluation, transparency, AI-assisted decision making, prompt engineering.

- **Anthropic – Claude 101**

Claude fundamentals, prompt engineering, AI workflows, effective prompting and responsible AI usage.

- Google Data Analytics Professional Certificate
- Machine Learning and Deep Learning Specialization
- Advanced SQL for Data Analysis
- Introduction to Git and GitHub

Academic Interests

- Human-in-the-Loop AI
- Large Language Models
- Prompt Engineering
- AI Evaluation
- Explainable AI
- Graph Analytics
- Responsible AI
